Lake Level

The Village of Lakeview set the lake level. There have been no issues this season.

Financial Update

Todd provided a financial update to the board. He stated that he is nervous about carrying such a large fund balance (\$208,706) and believes that the assessment should be lowered. Todd asked Steve if he thoughts on additional/differing treatments using some of the balance. Steve stated that he does not believe harvesting is necessary for this lake and he doesn't believe there are enough treatments and necessary treatments to burn down the balance. Todd advised the board that the best course of action would be to lower the assessment for the next year.

A motion was made by Todd and seconded by Chris to lower the 2022 assessment by 50% to \$45,000 for next year. Motion carried

Treatment Update

Steve advised the board of the treatment program and informed the board of pending price increases for next season. He would like to add a sonar spot treatment into the plan for next season. Chris asked about stocking the lake with native plants to get rid of invasive plants. Steve said that he would do some research regarding plant stocking.

2021 Draft Assessment

The board reviewed the draft assessment and agreed with Todd's earlier statement to lower the assessment to \$45,000 for next season in order to burn down some of the fund balance.

A motion was made by Todd and seconded by Chris to accept the assessment roll of \$45,000 as discussed. Motion carried.

There being no further business to come before the Lake Board, a motion was made by Chris and seconded by Todd to adjourn the meeting at 4:19 p.m. Motion carried.
