Public Comment

No public comment.

Treatment Update

Mark provided a treatment update to the board. He advised that there were three treatments completed this season and the lake is looking good. He noted that he found Chara during the third treatment, and they will begin targeting that next season. Joni asked if they are going to treat for algae again. Mark said it is not currently scheduled, but she should let him know if she sees a large bloom. Mary Ann asked when the lily pads are treated. Mark said they can be treated anytime, but fall is best. He added that no one contacted him regarding lily pad treatments.

Financial Update

Todd provided a financial update to the board, including a current balance of \$21,411.31. He added that they are earning about \$1,000 a year in interest.

Special Assessment Roll

Todd provided a special assessment roll to the board and noted that there were no splits or combinations completed this year so the assessment amounts will be the same for the 2024 winter roll.

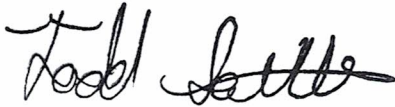

Lake Level

The lake level is very low and there were concerns that the residential work done on the outlet was causing issues. Todd advised that lake levels are low all over the county due to the lack of winter and rain.

Other Business

Matt asked about the fish stocking program. Joni advised that they haven't stocked in recent years because of fish availability. She added that fish will be available in the spring that should be viable. Mark stated that fall would be best for fish stocking. Todd will reach out to Stoney Creek to see what they have available and if they could possibly still stock this year. He will look into stocking crappie and walleye.

There being no further business to come before the Lake Board, a motion was made by Todd and seconded by Matt to adjourn the meeting at 2:42 p.m. Motion carried.
