Treatment Update

Luke provided a treatment update to the board, see attached treatment journal. Luke noted that the treatments worked really well and there is still \$5,300 left in the treatment budget for this season. Bob and Randy noted a lot of wild celery but added that Rick didn’t believe it was a navigational issue yet. Bob noted that it was a native plant and cannot be treated for purposes other than navigational and it is growing mostly in undeveloped areas. Todd asked if wild celery can completely take over. Luke noted that he has not seen that happen. Todd suggested that the wild celery be checked during the first survey of next season. Randy added that the celery is thick and can choke out a habitat and asked if it can be harvested. Luke is hesitant to harvest as he’s afraid it wouldn’t be cost effective. Anne is to research the Rainbow Lake Drain AVAS survey for plant growth.

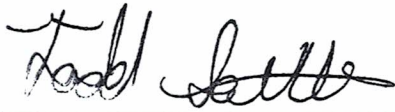

Financial Update

Todd provided a financial update to the board, including a current balance of \$46,923.53.

Other Business

Randy noted that the lake level is low. Bob and Todd both noted that all of the area lakes are down because of high temperatures and lack of rain. Todd provided a special assessment roll to the board. Randy asked why the Breakaway Corp is paying five shares when there are other properties with multiple trailers only paying one share. Todd stated that we will investigate the factors, but no changes can be made until the next public hearing.

There being no further business to come before the Lake Board, a motion was made by Todd and seconded by Pat to adjourn the meeting at 3:42 p.m. Motion carried.
